AUTUMN

WINTER

SPRING

Field Practicum
(400 Hours/ Minimum 8 hours per week over 12 months from October to September)

Field Seminar with Field Consultant

Field Case Seminar with Field Consultant

Considerations for EEP Students Only:

*** When choosing electives, 60% of our students design their own educational program. Others choose to apply to and complete a Program of Study. EEP students are able to complete the AOD program. It is tough, but possible to complete the Global Social Development Practice or the School Social Work programs. Students in the School Social Work program of study follow their local school placement schedule rather than the Crown Family School calendar. EEP students accepted into the School Social Work program of study delay the start of their field placement until the third year. EEP students must also be in the field three days a week during the third academic year and participation in day time field seminars is required.
